

ANNUAL REPORT
OF THE
TOWN OFFICERS

Town of Hadley

FOR THE

Year Ending December 31, 1933

METCALF PRINTING & PUBLISHING Co., INC.
NORTHAMPTON, MASS.

Hadley Town Warrant

COMMONWEALTH OF MASSACHUSETTS

Hampshire, ss.

To Chester G. Smith, Constable of the Town of Hadley, in the County of Hampshire:

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of said town, qualified to vote in elections and town affairs to meet at the Town Hall on Monday, the fifth day of February next, at ten-thirty o'clock in the forenoon, then and there to act on the following articles.

Article 1. To receive and act on all reports to be made at said meeting.

Article 2. To elect all necessary Town Officers, Treasurer, Collector of Taxes, Tree Warden, Elector under the will of the late Oliver Smith of Hatfield, six Constables, each for a term of one year; one member of the Board of Selectmen, one member of the Board of Assessors, two members of the Library Trustees, each for a term of three years.

Article 3. To see if the Town will vote to accept the list of men nominated by the Selectmen to serve as Jurors for the year ensuing.

Article 4. To determine the manner of repairing the highways, townways and bridges the ensuing year or act anything thereon.

Article 5. To determine the manner of collecting the taxes the ensuing year or act anything thereon.

Article 6. To see if the town will authorize the Treasurer, with the advice and approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year or act anything thereon.

Article 7. To see if the town will authorize the Selectmen to defend all suits that may be brought against the town; prosecute all claims in behalf of the town; employing counsel when same may be necessary, or act anything thereon.

Article 8. To see if the town will authorize the Selectmen to sell and convey by proper deeds in the name of the town any or all outlying parcels of land owned by the town or act anything thereon.

Article 9. To see if the town will vote to raise and appropriate such sums of money as shall be deemed necessary to defray the current expenses of the financial year or act anything thereon.

Article 10. To see if the town will authorize the Selectmen to make a new agreement with the Western Counties Electric Co. for maintaining and supplying electricity for the street lights in town.

Article 11. To see if the town will authorize the Selectmen to grant an easement to the New England Telephone and Telegraph Company and the Western Counties Electric Company for a pole line across a parcel of land owned by the town of Hadley and known as the Dike Lot.

Article 12. To see if the town will appropriate the sum of six hundred forty three dollars (643.00) to pay for the balance due on the installation of a steam boiler at the Russell

School and to pay for the construction of fire exits at the North Hadley School as called for by the Fire Inspectors.

Article 13. To see if the town will vote to direct the Selectmen or Moderator to appoint a committee of three or more citizens to cooperate with the Massachusetts Forest and Park Association in the detection and eradication of the Dutch Elm disease.

Article 14. To see if the town will raise and appropriate a sum of money to be used in conjunction with money contributed by County and State or money received from any other source for the construction of a road .18 of a mile in length, including a new bridge over Fort River, said road and bridge being located on the Hockanum road on a new layout south of Gouger's mill and that the Selectmen be authorized to confer with County and State officials on the project or act anything thereon.

Article 15. To see if the town will authorize the Selectmen to procure a right of way across the property of Judson T. Gouger, appropriate money for the same or act anything thereon.

Article 16. To see if the town will vote to appropriate a sum of money not exceeding \$200.00 toward completion of the cement sidewalk extending east from West Street on Russell Street (that has been in an unfinished condition several years) and that the customary assessment be levied against the abutters thereof.

Article 17. To see what action the town will take in regard to electing by ballot a road surveyor to have charge of the highways in town as provided in Section 62 of Chapter 41 General Laws or act anything thereon.

Article 18. To see if the town will vote to allow the sale of all alcoholic beverages in Taverns and whether the Selectmen shall be authorized to issue licenses for the same.

Article 19. To bring in your ballots "yes" or "no". Shall licenses be granted in this town for the sale therein of all Alcoholic beverages?

Article 20. To bring in your ballots "yes" or "no". Shall licenses be granted in this town for the sale therein of wines and malt beverages?

Article 21. To see if the town will vote to purchase a new chassis for the town truck, appropriate money for the same or act anything thereon.

And you are directed to serve this warrant by posting attested copies thereof at the usual places: one at the Town Hall; one at the store of Rudolph F. Hahn in North Hadley; one at the store of Harry E. Gaylord and one at the School House in Plainville all in said town seven days at least before the time of holding said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk at the time and place of said meeting.

Given under our hands this twentieth day of January, in the year of Our Lord one thousand nine hundred and thirty-four and of the Independence of the United States the one hundred and fifty-sixth.

SEYMOUR H. PARKER,
MICHAEL T. DWYER,
EDMUND SMITH,

Selectmen of Hadley.

A true copy, attest:
January, 1934.

CHESTER G. SMITH,
Constable.

Selectmen's Report

The Selectmen submit their report for the year ending Dec. 31, 1933.

There were no special road projects voted last year; we have continued to care for the roads under Chapter 81 and we advocate its continuance for 1934. Mr. Linn R. Underwood has completed his fifth year as Superintendent of Streets and he has a very complete report in this book. It seems unnecessary for us to speak of the various phases of road work as it would only be a repetition of what has already been said in his report.

We have been very fortunate in escaping large storms with a consequent large expense for snow removal. We did have such a one late in December and much of that expense was carried over in this year's expense and for that reason we are asking a little increase for general highways.

There is a special article in the warrant calling for an appropriation to finish the Hockanum road; this is a matter for the voters to decide.

There is another article asking for money to purchase a new town truck. In the interests of economy it would seem wise to do this.

The Fire Department is in fine condition and has had a busy year, as may be seen in the report of the Fire Chief.

Perhaps the most talked of department today in State and nation as well as in the individual cities and towns is the Welfare Department. We in Hadley are among the lowest in cost per capita and we are hopeful to continue in that class. We are at present giving away one day each week at the town hall food given by the Federal Government.

Our Old Age Assistance Department remains about the

same as last year with one out of town case closed and one in town opened.

A table showing the indebtedness of the town and also a balance sheet will be found in the report of the Town Accountant. Resources of the town not listed in his report are as follows:

REAL ESTATE

Town Hall	\$30,000.00
Hose House	2,000.00
School Houses	148,000.00
Library	18,000.00
Cemeteries	3,700.00
Aqua Vita Lot	2,000.00
Gravel pit	500.00
C. G. and M. J. Smith lot	600.00
Cook—McGrath lot	100.00
Dike lot	100.00
	<hr/> \$205,000.00

PERSONAL PROPERTY

Town Hall	\$2,500.00
Schools	16,000.00
Library	6,500.00
Highway Department	3,500.00
Fire Department	6,500.00
Tree Warden Department	300.00
	<hr/> \$ 35,300.00

Total appraisal Dec. 31, 1933	\$240,300.00
-------------------------------	--------------

Insurance policies in the custody of the Town Accountant provide protection as follows:

REAL ESTATE

Town Hall	\$ 20,000.00
Hose House	1,600.00
School Houses	130,800.00
Library	10,000.00

PERSONAL PROPERTY

Town Hall contents	\$ 900.00
School House contents	4,400.00
Library books	3,500.00
Equipment Sealer Weights and Measures	1,600.00

The estimates of the Selectmen for the expenses of the current financial year for the several departments will be found in the Appropriation Budget together with the amounts expended last year and the recommendations of the Finance Committee for this year.

Respectfully submitted,

JOHN MILESKI,
JOHN E. DEVINE,
JOHN WANCZYK,

· Board of Assessors.

Superintendent of Streets

To the Honorable Board of Selectmen:

I hereby submit my report as Superintendent of Streets for the year 1933.

This completes our fifth year under Chapter 81 and with this help we can do more for our roads. This year we have tried some gravel mixed with asphalt cut back in one place, and one with tar. Both roads are proving satisfactory. I hope we can have more of this kind of work done on our roads each year thereby doing away with the mud in the spring.

The usual amount of patching and shoulder work has been done on the North Hadley and Sunderland Road also the new Hockanum Road has been taken care of.

The brush along the roadside has been cut and carried away.

The usual amount of Spring and Fall scraping has been done.

Our drainage system is in good order. We have replaced quite a number of old pipes with new ones.

The usual amount of gravel has been applied and leveled on the roads. Trucks owned by townspeople have been used and the labor almost all done by men working on back taxes.

A good share of the snow work has been taken care of by the town truck but owing to the heavy drifting in one storm we had to call on Mileski Bros. and Warner Bros. and Goodwin of Sunderland to scrape the roads.

With the money from the Town, State and County a dike has been built in Honey Pot. This has given many men work this winter and we also hope will be a great benefit to the land owners of that part of the town.

Just now we are working on the CWA projects. We are graveling some roads and getting them into condition with the thought in mind that perhaps later we may apply some asphalt cut back or tar mixed in place on the surface. These projects give many men and owners of trucks in the town work, whereas other years we stop all such work in November and do not start again until April.

Respectfully submitted,

LINN R. UNDERWOOD,
Superintendent of Streets.

Report of Fire Chief

To the Honorable Board of Selectmen:

Gentlemen:

As Chief of the Fire Department, I submit my report for the year of 1933.

Number of calls	20
-----------------	----

Calls classified as follows:

Garages	3
Houses and Barns	3
Chimneys	7
Barns	3
Houses	3
Truck	1

In the past year we answered to twenty fires and find that the amount of two hundred dollars appropriated last year is not sufficient to cover call firemen, and I would recommend three hundred dollars for this year.

Respectfully submitted,

LELAND SANDERS,
Chief of Fire Department.

Sealer of Weights and Measures

To the Honorable Board of Selectmen:

The following is the report of the Sealer of Weights and Measures for the year 1933:

Total number of devices sealed	299
Platform scales over 5,000 lbs.	3
Platform scales 100 to 5,000 lbs.	1
Counter scales under 100 lbs.	5
Beam scales 100 lbs. or over	77
Spring scales under 100 lbs.	13
Spring scales over 100 lbs.	1
Computing scales under 100 lbs.	5
Weights tested	133
Liquid measures sealed	24
Gasoline pumps sealed	26
Gasoline meters sealed	11
Fees collected	\$58.69

JOSEPH P. SHOCKRO,
Sealer of Weights and Measures.

Moth Superintendent

To the Board of Selectmen of the Town of Hadley:

Gentlemen:

I hereby submit to you my report for the year 1933, as superintendent of the gypsy moth extermination work.

Upon recommendation of Mr. Grover C. Twiss, Division Superintendent of the Massachusetts Gypsy Moth Department, we started the gypsy moth work on October 3, due to the fact that the trees and brush along the bank of the Connecticut River, bordering the meadow known as Honey Pot, and on an island near by were covered with egg clusters and in a serious condition. Permission was obtained from the abutters to cut brush and whatever trees were necessary. Six men were employed, from October 3 to November 10, for the work on the river bank and island.

The brush was cut and burned. Several trees were cut down, and in order to lower them so the egg clusters would not break it was necessary to use ropes. On trees that were not cut down, the men climbed, sometimes 40 feet, to destroy the clusters. Mr. Leland Sanders kindly loaned us a safety belt for climbing, and thus saved the expense of purchasing one.

The number of egg clusters destroyed by creosoting, on the river bank and island, was 89,956, and I estimate that approximately 60,000 more egg clusters were burned on the brush and trees. On one tree alone 1,286 egg clusters were found.

The total cost of the work, for labor and supplies, on the river bank and island, was \$476.25.

The river bank and island will require more work next year.

The regular work of examining the trees throughout the town was started on November 13 and continued until December 8. Six men were also employed on this work. There was an increase in the number of egg clusters found. A particularly bad place was found near the Blue Eagle Inn, but due to the ice the work at that place was left unfinished until later.

The number of places where egg clusters were found was 89. The total number of egg clusters found, in covering the town, was 5,328. The total cost of this regular work was \$217.25.

In addition to the town work, on November 28 I started to work with four men, under state supervision, in the woods throughout the town, and expect to continue until February 15 at least. This work is costing the town nothing. We have already found quite a number of clusters in the woods.

Respectfully submitted,

HAROLD M. BROTHERTON,
Superintendent.

Cemetery Committee

To the Honorable Board of Selectmen:

Your Cemetery Committee hereby submit their annual report for the year 1933, as follows:

The five Cemeteries have been carefully supervised this past year and they have been visited extensively by hundreds of people from many States.

We did not anticiapte that the interest rate on our funds would be cut so heavily; by careful economy we did not exceed our revenue.

FINANCIAL STATEMENT

Receipts from all sources have been for the year of 1933:

From Town Appropriation	\$550.00
Interest on Perpetual Care Funds	286.60
	<hr/>
	\$836.60

From Mrs. Eliz. H. Adams for care of Theopholis Huntington lot	50.00	
		<hr/>
Total new endowments	\$525.00	

The old Hadley Cemetery acknowledges with gratitude the gift of Mrs. Florence Marsh of Washington, D. C., of twenty evergreen trees, and also the gift of two Colorado spruce by

the Connecticut Dickinson Association of Hartford, Conn. Mrs. Myrtie Willing of Phelps, N. Y., the gift of a shrub from an Ohio cemetery for the site of a new memorial to Hadley first settlers, to be erected soon.

The response to a vigorous campaign for further increases to the Old Hadley Cemetery Perpetual Care Fund has been very gratifying, as the foregoing list enumerates. We look forward to the time when the cemetery may be self-supporting.

C. S. ABBOTT, Chairman
C. S. GREENE, Sec.
F. C. REYNOLDS, Treas.

Library Report

The trustees are pleased to report that we have been able to accomplish the redecoration of the main library room, a work that was very much needed.

The circulation for the year has been 9529, while for North Hadley it was 4602, a gain of 80.

Sixty-eight adult books and 93 juvenile books have been added to the shelves of the main library.

A loan of books printed in Polish has been made by the State Commission, and has proved to be very popular.

At North Hadley, two bulletin boards have been installed, on one of which Mrs. Hibbard records the list of new books, also reading lists for high school pupils, and on the other are placed attractive pictures for primary grades.

The library co-operates with the academy in adding books, which are especially adapted to boys and girls of high school age. These include many modern biographies, books of travels, and historical novels which are stimulating and inspiring for young people to read. The academy students are encouraged to select for their outside reading and book reports, some of the best of these modern books as well as the recognized classics.

We are not printing the list of new books in the town report this year, in the interests of economy, but such lists may be obtained from the librarians at any time.

We welcome gifts of books, as our funds for the purchase of books is limited.

The same generous supply of magazines appears on the reading tables as in former years.

We wish to record our appreciation of the faithfulness and interest of our librarians and their assistants.

The trustees request an appropriation of \$600, plus the dog tax and the income from the Bulfinch Fund.

Respectfully submitted,

MRS. JAMES P. REED, Chairman	Term expires 1934
MRS. F. H. SMITH, Secretary	Term expires 1935
MRS. A. C. HOWE	Term expires 1935
MRS. J. R. CALLAHAN	Term expires 1936
MRS. R. C. HIBBARD	Term expires 1936
MISS BRIDIE O'DONNELL	Term expires 1934

Report of Police Department

To the Honorable Board of Selectmen:

The following is my report as Chief of Police of the Town of Hadley, for the year ending December 31, 1933:

Constables who were elected at your last town meeting and were qualified to act as such for the ensuing year.

Frank J. Reardon	Edward C. Hannigan
John F. Pelissier	Chester G. Smith
John Kowall	George H. O'Hara (resig.)

Number of arrests within the town for various offenses during the year as follows:

CRIMES AGAINST PERSON

<i>Local Police</i>		<i>State Police</i>	
Assault and battery	4	2	
Assault to ravish	1		
Abuse female child	2	1	
Assault with dangerous weapon	1		
	—	—	
Total	8	3	Total 11

CRIMES AGAINST PUBLIC ORDER

<i>Local Police</i>		<i>State Police</i>	
Drunkenness	4	6

SCHOOL CENSUS AS OF OCTOBER 1, 1933

	Boys	Girls	Total
Between 5 and 7 years	50	38	88
Between 7 and 14 years	284	252	536
Between 14 and 16	94	100	194
Total	428	390	818

Since the previous year the census has decreased by 36 pupils.

SCHOOL CALENDAR

Elementary Schools and Hopkins Academy

Winter Term—January 2 to about the first of April.

Vacation of ten days for Hopkins Academy and of two weeks for the elementary grades. We will try to accommodate the greatest number of taxpayers with their early planting.

Spring Term—Will close for the elementary schools June 15th.

Hopkins Academy will close June 20th.

Fall Term—Begins the day after Labor Day, or Sept. 4th, and will close for the Christmas vacation December 21st at noon.

The next term to begin January 2, 1935.

There will no sessions of school on Good Friday nor the following legal holidays:

February 22nd, April 19th, May 30th, Labor Day, October 12th, and November 11th.

The schools will close at noon the day before Thanksgiving.

Report of School Committee

Due to the limitations of the budget, it has been impossible for your Committee to do more than provide for the most urgent requirements. It is possible for Towns, as well as individuals, to practice strict economy for a limited period, but there are limits to economy as there are limits to all other things. While it may be felt that in February the decision can be made as to what will be spent during the course of a school year, we are all obliged to bow to the unexpected and to the economic conditions of the world at large.

Since our last Town Meeting, the whole economic system in which we live has been going through a period of tremendous re-adjustment, and this economic change has had its effect upon the sufficiency of your school appropriation. School supplies, which could have been bought less expensively a year ago, had there been sufficient money, now have risen appreciably. In the meantime, the natural wear and tear resulting from use has been going on, and now additional supplies must be purchased because of the prospect of an increased enrollment in the Academy. With this prospective increased enrollment, there have arisen two very definite problems. There is not only the matter of more books and furniture, as well as providing for the housing of the students in the Academy, but provision must also be made for additional transportation from at least the northern section of the Town. A suggested two session plan at the Academy might save the Town some money in transportation as we could use our present equipment for transportation by having a full time driver of the school bus, but as the present Town owned school bus now makes two trips each morning before the opening of school, it is not possible to put in a third trip. A two session plan, on the other hand, would call for extra teachers. In any event, whichever plan is adopted, at least one more teacher will be required for the Academy.

The unexpectedly cold winter has called for the burning of an additional amount of coal, and it is for contingencies such as these for which your Committee must make provision many months in advance.

The boiler in the Russell building had to be replaced during the Christmas Holidays, the original boiler which had been in use for some forty odd years having rusted out. With insufficient money in the treasury for such a contingency, your Committee is inserting in the Town Warrant a special article to provide for the balance due on this job, as well as for the emergency repairs at North Hadley.

The problem of what to do with some of the schools in the outlying districts with their small enrollments, which make their continuance impracticable from an economic point of view, has been settled by the citizens of Hockanum, who, by assisting with voluntary contributions made possible the conducting of a school there for another year. Whether other communities in the Town will attempt to solve their problem in the same manner is as questionable as is the value of a small school. Competition is, after all, an excellent incentive to better work, and this the small school too frequently lacks.

At the close of the school year, a census is taken and plans are made for the enrollment in the Fall, but with the large number of State wards who are constantly coming and going in the Town, and the natural fluctuation resulting from families moving in and out of Town, it is impossible to estimate with any degree of accuracy the number of students who will be enrolled in a given class or a given building, and it is because of this factor that we shall probably be forced to continue certain of our one room schools even after they have apparently outlived their period of usefulness.

The Townspeople having voted not to appropriate money for the purchase of a school bus by your Committee, it became necessary to make a contract with an individual to provide transportation from the community of Hockanum.

Repairs have been kept down to an absolute minimum, but your Committee was required to spend money on the North

Hadley building, where the State Fire Inspectors have called for additional safety doors. This building has been built well over sixty years, and it was unfortunate that the requirement should not have been enforced until this year, if there was a real need for such doors.

The teachers of the Town have given the children who are attending our schools their very best efforts and their financial assistance, and we may well be proud of the type of education we are giving, even in these years of depression.

Your Committee would again like to call the attention of the citizens to the reimbursements received from outside sources.

General School Fund—Part I	\$13,075.00
Part II	6,080.68
Vocational Returns—Hopkins	3,174.93
Superintendent of Schools	928.93
Adult Evening Classes	160.00
	<hr/> \$23,419.54
From Hopkins Trustees	2,000.00
	<hr/> \$25,419.54
From Federal Grants	511.55
	<hr/> \$25,931.09
Teachers' Contributions	2,741.25
	<hr/> \$28,672.34

In the past year, \$53,303.48 was spent in the conducting of our schools. It is surprising to note perhaps that 53.79%, or more than 12% in excess of what was received last year, was received from sources other than direct taxation by the Town. Because of this large reimbursement there should be no serious complaint about the cost of our school system.

Respectfully submitted,

WILLIAM E. DWYER,
LOUIS J. PELISSIER,
ERNEST S. RUSSELL.

REPORT OF THE Superintendent of Schools

To the School Committee and Citizens of Hadley:

I submit herewith my third annual report as superintendent of your schools and I shall review 1933 matters frankly and also forecast 1934 conditions as plainly.

First of all I would state that your teachers worked as a unit in meeting the budget reduction as granted at the annual town meeting and donated \$2,741.25 or $7\frac{1}{2}\%$ of their salaries. This means that that amount was not paid them and yet their action retained in full the two parts of the General School Fund for the town. Indeed the General School Funds for 1932 totalled \$17,543.98 and that for 1933 was \$19,155.68—an increase of \$1,611.70!!

The peak of grade membership has advanced another grade and this year the grades VII about town have 110 pupils. The next table shows the pupil distribution at the close of the past term

Elementary

Grades	I	II	III	IV	V	VI	VII	VIII	Special
	61	53	60	85	98	66	110	81	13

Hopkins Academy

Fr.	So.	Jr.	Sr.
68	49	36	44

—197—Total 824

Do you notice that there are more Freshmen than first grade pupils?

It has been stated before that until this peak of membership has advanced through the academy that the expenses for supplies

and books must remain rather high. High school texts and supplies naturally exceed the cost of primary material. The cost of supplies owing to price agreements and labor codes will be higher than for the past few years. Frankly I doubt if the cost of such things will be as low again within our memory.

There was not a single change in any teaching position in town. Ten years ago half the teaching force would have changed.

A year ago I referred to the pupil teaching load and made a comparison between that for the Hadley teachers and the state average when Hadley had a higher average teaching load. In the year changes have come about and now the Hadley teachers are teaching an average class,—namely 29 plus pupils. Frankly the tendency is to eliminate the small schools and to expand the bus service. It is more economical and yet the individuality of the small group is lost.

With this in mind it appears at this time that three or four classrooms will not be needed in September. The schools which come in this group are Hartsbrook, Hockanum, West Street and either the Hooker Portable or the Town Hall room. The Hooker School must absorb all the lower four grades and the Russell School the upper four grades. In two more years apparently the Plainville School can be closed.

Now the closing of these classrooms will not mean that the entire amount of salary, janitor expense, fuel and light will be eliminated for the full year—good readers,—but for the four fall months. There is always the chance that some home becomes a foster home for some state or city wards and some homestead may change ownership with a change in school facilities expected and required. Also, the present enrollment at the academy demands another teacher for half a day if not all day. What I would like to see happen in time for the opening of school in September is the return of a drawing and penmanship teacher who would be qualified to teach classes in the Academy in the morning and the elementary grades in the afternoon. Paradoxical as it may sound, a full time teacher for Hadley at a \$1000

under the present rates of state reimbursement would return to the town from those sources \$850 while the present part time music supervisor at \$650 brings back only \$225 per year. In other words an investment of \$1000 eventually costs the town \$150 and one of \$650 costs \$425 nearly three times as much!! I hope nothing in this connection will be taken to mean that Miss Boyle is not a very good music supervisor. I think she is excellent. At the same time from the reimbursement standpoint a full time teacher for one town is better than the services of a teacher divided among several towns.

To make a place for an extra teacher at Hopkins Academy it may be necessary for the trustees and the committee to come to some agreement whereby the Hooker Portable—if in fit condition to be moved—may be set on a location convenient to the rest of the Academy buildings. If a new structure is deemed more serviceable then a two room building might be planned for and some of this CWA money or PWA money applied to the project. With the extra space I would recommend a commercial curriculum.

I firmly believe that for the greater number of high school pupils the offerings of the ordinary high school commercial courses are more adaptable and usable in after years. Then, too, the pupils left in the college bent groups will profit the more from the teaching in those particular classes for they will be more purposeful. With the tendency to raise by statute and code the compulsory age to sixteen or higher it means that we shall continue to see a large percentage of those completing Grade VIII continue through a four year high school course.

The school budget is shown in another part of the school report and I do not propose to make any extended appeal for its adoption. On the other hand a superintendent of schools can no more keep absolutely clear of the financial aspect of the schools than a bear can keep away from honey. The crux of school support rests with the parents and interested citizenry. If this group will not or can not support a program for the present educational system in the town then the present and

future pupils will be handicapped in an equal degree to mingle with the conditions as meet them when they become our citizens. If there is continued and added decrease in school appropriations there are some means which the committee will have to adopt much to their dislike and with the acquiescence of the voters.

1. Close as many schools and as fast as the pupils can be seated in the centrally located schools with adequate bus room.

2. Drop all married women teachers on the grounds of economic educational conditions,—also,

3. Drop all teachers who may attain the age of sixty during a scholastic year, for the same reason. They would not lose pension rights.

I do not imagine that the quality of teaching would be raised by the two last means but new and most likely inexperienced teachers would gladly accept the positions at the minimum legal salary. The actual salary costs would be lower and also the state reimbursement.

From year to year all pupils make some progress in the work of the various grades. Not all progress at the same rate in the matter of individual attainment. I believe that in 99% of the report cards that the teachers record the ratings fairly accurately, as near as the nature of the work will permit. A friendly atmosphere exists in your Hadley classrooms and thereby the whole school situation is wholesome. I do wish that more parents would visit the schools. I know you are busy but sometime through the ten months of school in a year can't some more of you spend an hour in the schools your pupils attend? You owe that much to them.

I would give at the end of this report some comparative figures based on the average *per pupil in average membership* for the school year which closed in June, 1933.

	Hadley	Commonwealth
Administration	\$ 2.93	\$ 3.53
Instruction	40.25	65.27
Books and Supplies	2.07	3.06
Janitor Service and Fuel	8.03	9.61
Repairs and Upkeep	2.51	3.12
Health	1.68	1.46
Transportation	4.70	2.52
Valuation per Pupil	3,666.00	9,525.00
School Support from local taxation	43.40	82.46
State Reimbursement	22.53	8.92

In conclusion may I thank the committee members, teachers, citizens, yes, and the pupils, for their cordial support and participation in the schools of Hadley.

Respectfully submitted,

WILLIAM E. HEBARD,
 Superintendent of Schools for
 Hadley and Hatfield.

January 9, 1934.

REPORT OF THE Principal of Hopkins Academy

The housing of high school pupils is a problem in many towns and cities. It is a problem here. The total enrollment this year is 206: 92 boys and 114 girls. As a number of students left school during the fall term, the enrollment at the beginning of the winter term was 197; 88 boys and 109 girls. The membership of the senior class is 44. There are about 90 boys and girls in the eighth grade. Allowing for the usual number who fail to complete their high school work, it is readily seen that the enrollment next fall will probably be 225 or more. Should there be more opportunities for work next fall, the enrollment would, no doubt, be somewhat decreased. Our buildings now are crowded to about the limit of their capacity. But for the fact that a large percentage of the boys and girls do not complete their high school education, we would now be unable to cope with the situation. Three years ago the total enrollment of grades 6, 7, 8, and 9 was 330. As less than 200 of these boys and girls are in Hopkins today, more than 130 have left school for one reason or another.

The change in the janitor policy made in the fall of 1932 has proven to be a wise one. The proper care of the Russell school and Hopkins buildings is too much for one man. The present policy of employing John Pelissier as head janitor with Robert Burke assistant janitor and driver of the school bus has proven most satisfactory. The buildings, grounds, and school equipment were never so well taken care of as they are today. Mr. Pelissier can do so many things well that he has already saved the town many dollars by making numerous minor repairs. He believes in and practices that idea that "a stitch in time saves nine." I doubt if there is a better, more capable or more conscientious janitor anywhere than Mr. Pelissier. Some idea

of the interest Mr. Pelissier and Mr. Burke take in their work can be judged by the following incident. One night during the very cold weather of the Christmas vacation, I made a tour of the buildings. In the gymnasium I found Mr. Pelissier and Mr. Burke. It was close to midnight. The two men had been on duty all day, and were prepared to remain all night. Thanks to their vigilance, our buildings and equipment came through the sub-zero weather without a particle of damage.

Last week, Dr. Lewis Perry, a veteran academy headmaster, speaking before a group of educators at Springfield said: "The essential quality of every good school is its teachers. The teachers are the stable element in the school; they carry the schools on. The more responsibility they assume the better, and the stronger they become. Too much credit is usually given to the head of a school, and too little to the staff." No principal could wish for teachers who are more willing to take on responsibility, and who are more devoted to the good of the school than are the teachers who assist me. The support of the trustees and school board, the helpful suggestions of superintendent Hebard, and the excellent spirit of cooperation manifested at all times by the versatile and capable teachers, make my work as principal enjoyable.

One of the policies at Hopkins is a faculty understanding of the boys and girls—understanding made not by stilted conferences, although conferences at the right time are valuable, but by contacts made in the class room, on the athletic field, at recess, or in the many great variety of ways in which teachers can meet the pupils. I wish, however, that we could have more conferences with the parents. I used to make it a point to visit many parents during the summer vacation. This was when the school was comparatively small. I wish parents or anyone interested in any phase of the work of the school would feel free to visit us at any time.

I gladly call to your attention the friendly relations Hopkins enjoys with other schools in athletics, debates, and dramatics. We are entered in the Twin State High School One Act

Play Contest, and in February our debating teams are to meet teams from Northampton high school and Amherst high school in a triangular debate. Those who attended the recent Smith academy-Hopkins basketball game played in our gymnasium had just reason for pride in the conduct of the players, in the spirit and courtesy of the cheering sections representing the two schools, and in the behavior of the crowd which packed the gymnasium to the doors. There was not a discordant note during the evening. Although the game developed into the closest game ever played here, requiring three overtime periods to decide the contest and then by a single point, the behavior of everybody toward players and official was courteous and fine. It was an excellent exhibition of sportsmanship of the right kind, by both Smith academy and Hopkins. The relations with Smith academy were never more friendly and cordial than they are now. Our boys and girls have a wholesome respect and admiration for Smith academy, and I know that the boys and girls of Smith academy have a similar regard for us. All our relations with Smith academy, St. Michael's high school, Amherst high school, Deerfield high school, Orange high school, South Hadley high school, Sanderson academy, Monson high school, Williston Seminary, Smith's School, and a number of institutions are most enjoyable. These contacts with other schools have a broadening influence on us all.

Respectfully,

JAMES P. REED.

Jan. 14, 1934.

Supervisor of Music

Music today is a great factor in education. No subject contributes more to the cultural, moral and social development of the child and no subject is more attractive.

We will define our course in music as being not specifically to create musicians but also to awaken interest in music and open avenues of study and appreciation, for an intelligent audience is as important as an artistic performer.

Music is of untold value in developing, mental alertness through thinking instantly of a syllable or word, of pitch and of tone value; self control through sight singing and individual work before the class and in public entertainments.

The cultural development of music includes, English in its classics set to melody, oral and written work through which the individual expresses himself. It also includes mathematics in its disposition of time problems and rhythm; Health education in its developing of the lungs and its influence on temperament and poise. It correlates with history in the singing of folk and national songs and music history, and with geography in the folk songs and songs of homeland, mountain, stream and forest also in folk dances of the nations.

It is impossible to measure accurately the progress made during the past year, we feel that from results shown considerable progress has been made. The fine spirit of interest and co-operation of the principals, teachers and pupils of the Hadley schools insures progress and success.

To Mr. Hebard and the school committee who have so heartily co-operated and encouraged us, I wish to express my sincerest appreciation.

MAUDE E. BOYLE.

School Health Report

To the Superintendent and
Members of the School Committee—

The key-note of the nation's interest today is the health and happiness of children, not from the view point of the altruist and economist only, but from the view point of common interest and sympathy for children as children as well as, children 'the assets of the nation'.

In the school we find children, good or bad, clever or dull, according to what is required of them, but all natural and free, not over-impressed by the weight of responsibility massed up against them 'as the hope of posterity'. All this being true, What can the school do to prepare the children to meet this responsibility? "We teach an individual only what they desire to learn" is a pedagogical theory, then the aim of education is to prepare the mind of the individual, or child, to appreciate the need and value of knowledge, and the method of using that knowledge to advantage.

The first requirement for successful living, as a rule, is Health. Step by step health teaching has progressed from the fundamental practice of daily health habits, as a duty, to the practice of good health habits as a scientific principle. Teaching the child the value of personal hygiene, as a duty, gets the child but a short distance beyond the starting point, but teaching personal hygiene as an expression of self-respect and personal responsibility appeals to the natural ego of—the smallest tot, stimulating self-confidence and free expression. A new necktie, a pretty dress, even a gold star placed on the back of a clean hand has worked wonders in solving problems in the class room and in the home. It is the responsibility of the school to supply the facilities whereby school children may practice good personal

hygiene, as far as sanitation is concerned. The schools in the Hadley district are well cared for in this respect, several of the out-lying schools have not modern conveniences but such as are supplied are well cared for and adequate.

The mental health of the child is a delicate instrument, too long overshadowed by the stress given to the physical, not that the physical is less important, but the mental approach to the physical has changed. The teaching of nutrition has changed probably more than any other factor, gross tonnage is not the objective, but posture, bright eyes, clean skin and hair, cheerfulness and 'pep' are the goals held up to growing children. The 3rd grade child will tell you, "why they should drink milk," "go to bed early," "eat fruit and vegetables," "see your dentist twice a year." Why? "Because it is the thing to do," of course, no dispute about it. Who wants to be a 'flop'?

'How much have I gained this year? Will you test my eyes, they seem to blur? Look at my teeth, I had them fixed last week!' are remarks hurled at me every day. This interest is a healthy, a sincere desire to appear well and get full value out of living.

This progress in Health Education is not spectacular or accidental. It is difficult to frame or evaluate daily contacts, common interest, cooperation and understanding in any branch of education, health education especially.

The physical examination of all the school population has reached a high level. The school physician has given much time and consideration to each detail, especially the chest examination.

The oral examination by the school dentist is a valuable service as tabulated results show.

The school health service submits the following report of corrections

Dental defects corrected by clinic service	161
Dental defects corrected by private dentist	140
Dental defects corrected total	301

Nose and throat defects corrected	16
Vision defects corrected or improved	22
Malnutrition defects improved	33

The Schick Test was given to 55 school children early in the year. 50 negative, 5 positive reactions.

The Chadwick Clinic follow up X-ray and examination was held in Oct. Of the clinic group 14 reported much improved. 1 not improved and recommended to the Hampshire County Health Camp.

3 other children were X-rayed as precaution following acute infections, reaction negative.

34 pre-school children were vaccinated at the clinic held in June.

The usual Toxin-Anti-Toxin clinic was omitted this school year and referred to the local Board of Health for consideration regarding broader service including pre-school children. All parents are advised to avail themselves of this service when presented.

The epidemic of mild Scarlet Fever disturbed the school attendance to considerable extent during the spring term. The usual complications following even mild scarlet fever was not as serious as it seemed at the time. The discharging ears, with two exceptions, cleared up to normal as shown by a detailed hearing test given to all pupils 3rd to 8th grade, inclusive.

General nutrition of the school group rate about 95%, a rate above the average considerably.

HEALTH TEACHING SERVICE

Classes in Physiology, Hygiene and Nutrition were held each week for the Freshmen group. Home Economics Department.

Classes each week in Home Hygiene, with certificate Amer-

ican Red Cross, for the Junior and Senior group Home Economics Dept.

Class in Junior Red Cross First Aid was begun in May for the 8th grade boys. Russell School a group of 7 eligible for Red Cross certificates now.

At present and for the year 1934 classes are as follows:

17 girls, freshmen, Physiology, Hygiene and Nutrition, weekly.

18 girls, 7th and 8th grade, Junior Home Hygiene, Red Cross, weekly.

18 boys 7th and 8th grade, Junior Red Cross First Aid.

This report of the health work of the school is submitted to all members of the school faculty and pupils in grateful appreciation of cooperation and inspiration.

Respectfully presented,

MARIAN HOLMES, R.N.

January, 1934.
